

**NEW ADDITION TO THE PROTEX™ FAMILY OF ONE-STEP
CLEANERS/DISINFECTANTS—PROTEX DISINFECTANT WIPES**

Joining the Protex™ family of one-step cleaners/disinfectants, Parker Laboratories introduces Protex Disinfectant Wipes. One wipe is all it takes to eliminate a multitude of bacteria, viruses and fungi AND thoroughly clean hard surfaces.

Boasting more than just power, Protex Disinfectant Wipes are alcohol-free and safe for use on ultrasound transducers and probes, mammography compressor plates and other non-surgical surfaces.

The 6.5" x 6" pre-moistened disinfecting wipes are EPA registered and are available in Softpacks of 60 wipes, 12 Softpacks per box, and 2 boxes per case.

One step cleaning and disinfection PLUS sensitive equipment safety with Protex Disinfectant Wipes

Protex Disinfectant Wipes is available through medical supply distributors, or through Parker Laboratories. Please visit www.parkerlabs.com/protex.html for more information on Protex Disinfectant Wipes or www.parkerlabs.com for information on any of our other fine products.

Available for sale only in the U.S.A. and Puerto Rico.
